

MANUAL DISHWASHING AGENT (ECO)

CSL_02-01-17

Type:	High-foaming manual dishwashing agent; raw material data to apply for e.g. EU Ecolabel is available on request
Appearance:	Clear, colourless liquid
Active matter:	Approx. 15 %
pH (10 %):	Approx. 6

Formulation:

Ingredients	Description	Function	Concentration
LUMOROL HC-E 4377	Blend of anionic, nonionic and amphoteric surfactants	Cleaning, foaming and degreasing	30.0 %
Water			70.0 %
Perfume, dye and preservative			q. s.

Manufacturing process:

- ▶ Consecutively add each component in the order indicated above and mix until homogeneous before adding the next one.
- ▶ Adjust the pH (10 %) to approx. 6, e.g. by means of citric acid.
- ▶ Adjust the viscosity by means of sodium chloride.

Application:

For manual dishwashing. Dosage recommendation: approx. 4 g of concentrated cleaner in 5 litres of water.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions, they can serve only as a guide, and are therefore offered without obligation. We ask that the possible rights of third parties are observed. Existing laws and regulations must be observed, particularly in regard to manufacture, placing on the market, handling and application of the product formulated according to this guide formulation!
