

KITCHEN DEGREASER

CSL_02-04-32

- Type:** Kitchen degreaser with emulsifying components
- Appearance:** Clear, colourless liquid
- Active matter:** Approx. 6 %
- pH (concentrate):** Approx. 9

Formulation:

Ingredients	Description	Function	Concentration
Water			94.0 %
Ethanol	Solvent	Improves grease- and oil-dissolving power	3.0 %
ZETESOL TP 300	Triisopropanolammonium laureth sulfate	Cleaning and solubilising	1.0 %
MULSIFAN RT 163	Triglyceride ethoxylate	Emulsifier for triglycerides	2.0 %
Perfume, dye and preservative			q. s.

Manufacturing process:

- ▶ Consecutively add each component in the order indicated above and mix until homogeneous before adding the next one.
- ▶ Adjust the pH to approx. 9, e.g. with caustic soda.

Application:

For cleaning and degreasing waterproof and alcohol-resistant surfaces. Spray the concentrated formulation onto the surface to be cleaned, allow to act briefly and wipe off the loosened dirt. Then wipe with a damp cloth.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions, they can serve only as a guide, and are therefore offered without obligation. We ask that the possible rights of third parties are observed. Existing laws and regulations must be observed, particularly in regard to manufacture, placing on the market, handling and application of the product formulated according to this guide formulation!
