

# PET SHAMPOO, ODOUR CONTROL

## CST\_11-01-01

<b>Type:</b>	Mild pet shampoo with bacteriostatic effect
<b>Appearance:</b>	Light amber, viscous liquid
<b>Active matter:</b>	Approx. 13 %
<b>pH (concentrate):</b>	Approx. 6

### Formulation:

Ingredients	Description	Function	Concentration
Water			46.0 %
<b>ZETESOL MGS*</b>	Magnesium laureth sulfate and sodium laureth sulfosuccinate	Cleaning agent	40.0 %
<b>AMPHOTENSID B*</b>	Cocamidopropyl betaine	Cleaning agent	5.0 %
<b>ZETESECO HS 100</b>	Sodium capryloyl glutamate	Anti-odour agent	5.0 %
<b>PROTELAN VE/K</b>	Sodium cocoyl hydrolysed wheat protein	Cleaning agent	2.0 %
Ammonium chloride	Ammonium chloride	Viscosity modifier	2.0 %
Perfume, dye and preservative			q. s.

\*Different grades are available.

### Manufacturing process:

- ▶ Consecutively add each component in the order indicated above and mix until homogeneous before adding the next one.
- ▶ The viscosity can be increased by means of ammonium chloride.
- ▶ If necessary, adjust the pH to 6–6.5 with citric acid or diluted sodium hydroxide.

### Application:

Mild shampoo for pets with odour-reducing properties. ZETESECO HS 100 reduces the growth of odour-causing bacteria without harming the skin of the pet or the environment. Wet the fur thoroughly with warm water. Massage the concentrated shampoo into the fur until a gentle lather is formed, then rinse thoroughly.

The above results have been obtained from trials in our laboratory and plant. In the light of changing conditions, they can serve only as a guide, and are therefore offered without obligation. We ask that the possible rights of third parties are observed. Existing laws and regulations must be observed, particularly in regard to manufacture, placing on the market, handling and application of the product formulated according to this guide formulation!
