FROSTED WINTER COLLECTION

ZSCHIMMER & SCHWARZ

FROSTED WINTER COLLECTION

The winter season with its majestic, elegant and striking landscapes is in full swing. When covered with ice, snow or frost, nature takes on a totally different look. From snow-covered fields to frozen riverbeds and trees covered in hoarfrost, winter offers spectacular and captivating sceneries. But wintertime is also synonymous with red, dry hands or itchy and uncomfortable skin.

Icy cold winds and sub-zero temperatures make the skin's natural moisture barrier extremely fragile. When humidity levels are low, the skin is at risk of becoming dehydrated because there is not enough water in the atmosphere for the skin to absorb, leaving it dry, rough, raw and itchy. Dryness and dehydration are among the biggest concerns when it comes to skin during the winter months, which is why we need to take extra care of it during this time of year.

Discover Zschimmer & Schwarz's rich, nourishing and moisturising formulas to hydrate and protect your hands and body during the winter season.
